Foreword

Foreword

Development of management information system is essential for successful planning, monitoring and implementation of any social development program. Educational Management Information System (EMIS) has been accorded very high priority from the inception of the Sarva Shiksha Abhiyan program in 2001. District Information System for Education (DISE), developed by the National University of Educational Planning and Administration (NUEPA), was extended to all States & UTs and districts of the country. The depth of DISE coverage has increased over the years. In the light of the recommendations of the Expert Group on Creation of Unified System of Data Collection for School Education Statistics, a unified school data collection system for both elementary and secondary schools was made for the first time in 2012-13. Thus, 'Unified District Information System for Education' (U-DISE) subsequently emerged.

Department of Education has been geared towards improving the quality of U-DISE as well as ensuring its use and analysis. For this Bihar Education Project Council (BEPC) and UNICEF have come together to build capacity of district level MIS and Planning point persons through series of interactive workshops that included field based exercises. Joint efforts of Bihar Education Project Council and UNICEF have resulted in improved accuracy and consistency of U-DISE data, though it is still a work in progress. Now, we have to focus more and more on ensuring that U-DISE data is analyzed at every level. Moreover, it should inform the district level annual work plans.

I am happy to note that U-DISE has become a regular source of information on all aspects of elementary education. School-specific data are now available to users for information, analysis and research. Effort made by BEPC is visible as positive changes in 'District and State Report Cards', web enabled 'District & Block' profile available on district education department website, 'DISE Flash Statistics including Education Development Index', and 'Elementary Education in Bihar: Progress toward Universal Elementary Education (UEE), 'Analytical Tables', which data users and researchers have found useful.

I thank the entire U-DISE team of BEPC & UNICEF for bringing out the present publication. It is hoped that the publication would meet the need of various categories of users. Any suggestions for improvement will be appreciated.

Mr. R. K. Mahajan,
Principal Secretary
Department of Education,
Government of Bihar

**Message From
the State Project
Director's Desk**

Message From the State Project Director's Desk

Bihar has witnessed phenomenal expansion of school education system in recent years. Effective monitoring of such a vast system spread over diverse geographies and contexts that characterize different districts the state demands comprehensive data base. National University for Education, Planning and Administration (NUEPA) has been pursuing the goal of creating a reliable system of statistics on school education during the last two decades through the Unified District Information System for Education (U-DISE) which provides the basis for assessing the status of elementary and secondary education.

Bihar Education Project Council (BEPC) is committed towards improving quality of U-DISE data and also towards promoting its better use for planning and monitoring. This report is a continuation of steps towards ensure better use of U-DISE data as we believe that presentation of data in lucid, reader friendly manner is one way of improving its usage. It is, indeed, a great pleasure for me to present a summary data base on elementary education in Bihar through this publication which captures details from about 80,000 elementary schools.

NUEPA has always guided our efforts to improving coverage and quality of U-DISE data. Thus, I take this as an opportunity to thank NUEPA for its constant support. UNICEF has been a trusted ally in our journey towards quality education. As a part of collaborative efforts of BEPC and UNICEF, systematic steps have been made towards making U-DISE data more reliable and ensuring its use. This report on U-DISE trends is a continuation of these efforts. I appreciate Dr. Ganesh Nigam, Consultant- Monitoring and MIS from Education Section UNICEF, New Delhi for playing instrumental role in getting this report prepared. Let me also thank Ms. Pramila Manoharan, Education Specialist-UNICEF Bihar for her overall guidance and support and Ms. Parul Sharma, Education Officer-UNICEF Bihar for her efforts not only towards bringing up this report but also for steering the capacity building initiatives for enhancing skill sets of our district level MIS teams for better collection, compilation, use and analysis of U-DISE data. Last but not least, I thank Dr. Ravi Shankar Singh for anchoring the entire process of strengthening the overall information system on education in Bihar.

We will continue our efforts towards improving data quality and also towards finding out ways of presenting this data in various forms which are lucid, user friendly and provide insights to educational planners. I hope that researchers, policy makers, administrators and planners will find the publication both informative and useful.

Sanjay Singh
State Project Director
Bihar Education Project Council

Preface

Preface

Home to more than 104 million people, Bihar is geared towards educational transformation. Over the last one decade, the state has witnessed progress on key education indicators due to political will and commitment. Net enrollments at primary and upper primary level have increased for both girls and boys. While in 2004-05, there was one classroom for 90 students whereas by 2014-15, 1 classroom has been ensured for 53 students (UDISE). Similarly, we have also made progress of PTR which now stands at 50. Over the years, Government of Bihar has been able to establish requisite number of schools for children to ensure children's enrollment and teachers have been recruited on a large scale. Nevertheless, the journey towards fulfilling "The Right of Children to Free and Compulsory Education Act, 2009" (RTE Act) in Bihar has many formidable challenges. While there are above 79,000 elementary schools in Bihar yet less than 2% of the schools are fulfilling the all the RTE norms related to physical infrastructure and student-teacher ratios. Many schools are without boundaries, ramps, libraries and playgrounds. Similarly, there has been a significant progress on enrollment and number of out of school children has declined, yet Bihar contributes substantially to the total number of drop outs in India.

UNICEF has been a long and trusted partner to the Government of Bihar and Bihar Education Project Council (BEPC) in their efforts to ensure quality education to all children in Bihar. Realizing the importance of having a robust information system for better tracking and monitoring of RTE goals, BEPC has taken steps to strengthen the entire process of U-DISE data management, right from the stage of data collection to the stage of its analysis and use. BEPC also sought UNICEF's assistance for building the capacity of its team for enhancing accuracy and promoting analysis of UDISE for improved planning and monitoring. Through series of workshops and handholding exercises, joint efforts were made by BEPC and UNICEF to build 'data lens' amongst district level MIS and planning point persons so that they may understand the importance of the role they play in context of monitoring implementation of RTE and may accordingly work towards building their own skills for this challenging task. These efforts have yielded results and there has been a significant reduction in data related inconsistencies in UDISE data for the state. Now as Carly Fiorina, former CEO of HP has rightly said "The goal is to turn data into information, and information into insight".

This report on district wise trends on key educational indicators based on U-DISE data is a continuation of our joint efforts towards promoting use of data for better planning and management. We are grateful to BEPC for allowing us to be part of this process. The report provides an overview of educational status of Bihar and we hope that it will serve as a reference point for subsequent efforts in the direction of ensuring implementation of RTE at ground level.

Asadur Rahman

Chief, UNICEF Office for Bihar

Acknowledgements

From the inception of the BEPC, MIS & Planning team has been actively involved in strengthening the Educational Management Information System (EMIS) in the state. The Flash Statistics: Elementary Education in Bihar: Progress towards UEE is based on the data received from all the districts for the year 2015-16.

The publication presents not only state-specific indicators but also brings in many new dimensions of elementary education into focus. It incorporates key indicators on all aspects of universalization of elementary education in case of whole state. The Flash Statistics: 2015-16 is based on the data received from as many as 80 thousand plus schools spread over 38 districts across the State. The study of this magnitude cannot be completed without the active involvement and participation of the state & district MIS professionals. I am extremely thankful to all the District Education Officers, District Program officers, state level MIS team members, district MIS in-charge and data entry operators for timely supply of data.

I take this opportunity to thank Ms. Parul Sharma, Education Officer- UNICEF- Bihar for being part of our constant endeavors towards strengthening U-DISE and Ms. Pramila Manoharan, Education Specialist-UNICEF-Bihar for her overall support. I thank Mr. Sanjay Singh, State Project Director- BEPC who plays a crucial role in facilitating the implementation of U-DISE across the state and who has been a constant source of strength for our MIS team. I express my gratitude towards Mr. R.K. Mahajan for his encouragement and leadership. Thanks are also due to Dr. Ganesh Kumar Nigam, Consultant- Data Monitoring, Education section-UNICEF Country Office. I am thankful to Prof. A. C. Mehta, NUEPA, for his reassurance and guidance. I take this opportunity and thank NUEPA faculty for their support. The contribution of Mr. Dipak Kumar Tiwary, Assistant Computer Programmer, BEPC Patna in database management, is gratefully acknowledged and other members of the MIS team at BEPC for computing indicators that have been presented in the document.

I hope that this publication will be of value to education planners, policy formulators and researchers. Suggestions for improvement are most welcome.

Dr. Ravi Shankar Singh
State Program Officer,
MIS and Planning
Bihar Education Project Council

Transition Rate – Primary to Upper Primary level by district, 2014-15

National average : 90.14%

State Average : 84.96%

↑ Highest : 92.36% Rohtas

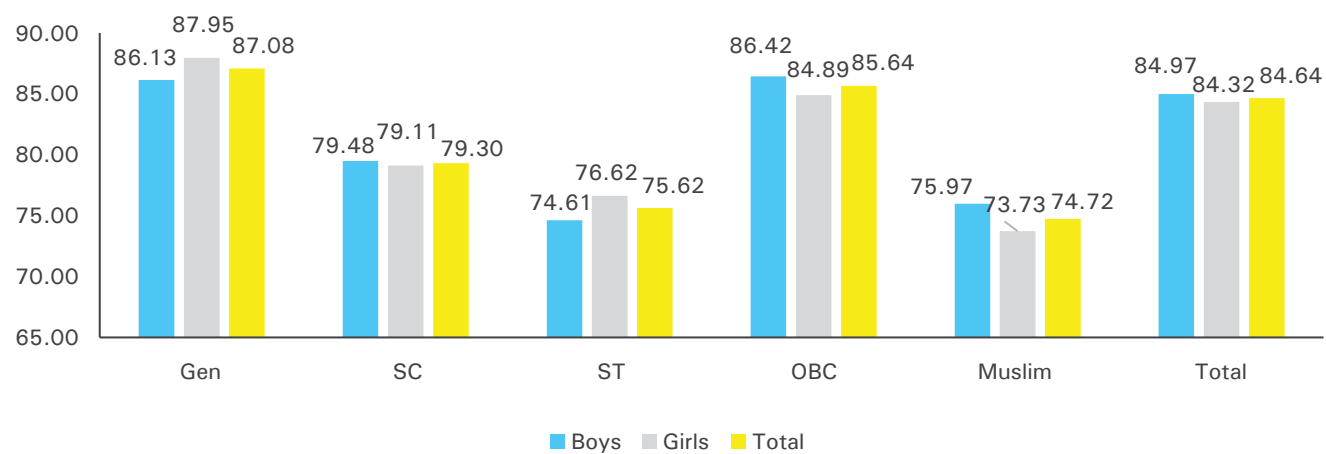

↓ Lowest : 73.29% Araria

Transition Rate - Elementary to Secondary by social groups and gender, 2014-15

	Boys	Girls	Total
Enrolment Grade-8, 2013-14	10.46	10.77	21.23
Enrolment Grade-9, 2015-16	8.93	9.13	18.06
Repeaters, Grade-9, 2015-16	0.05	0.04	0.09
No. of students of grade-8, who could not reach grade-9	1.57	1.69	3.26
Transition rate	84.97	84.32	84.64

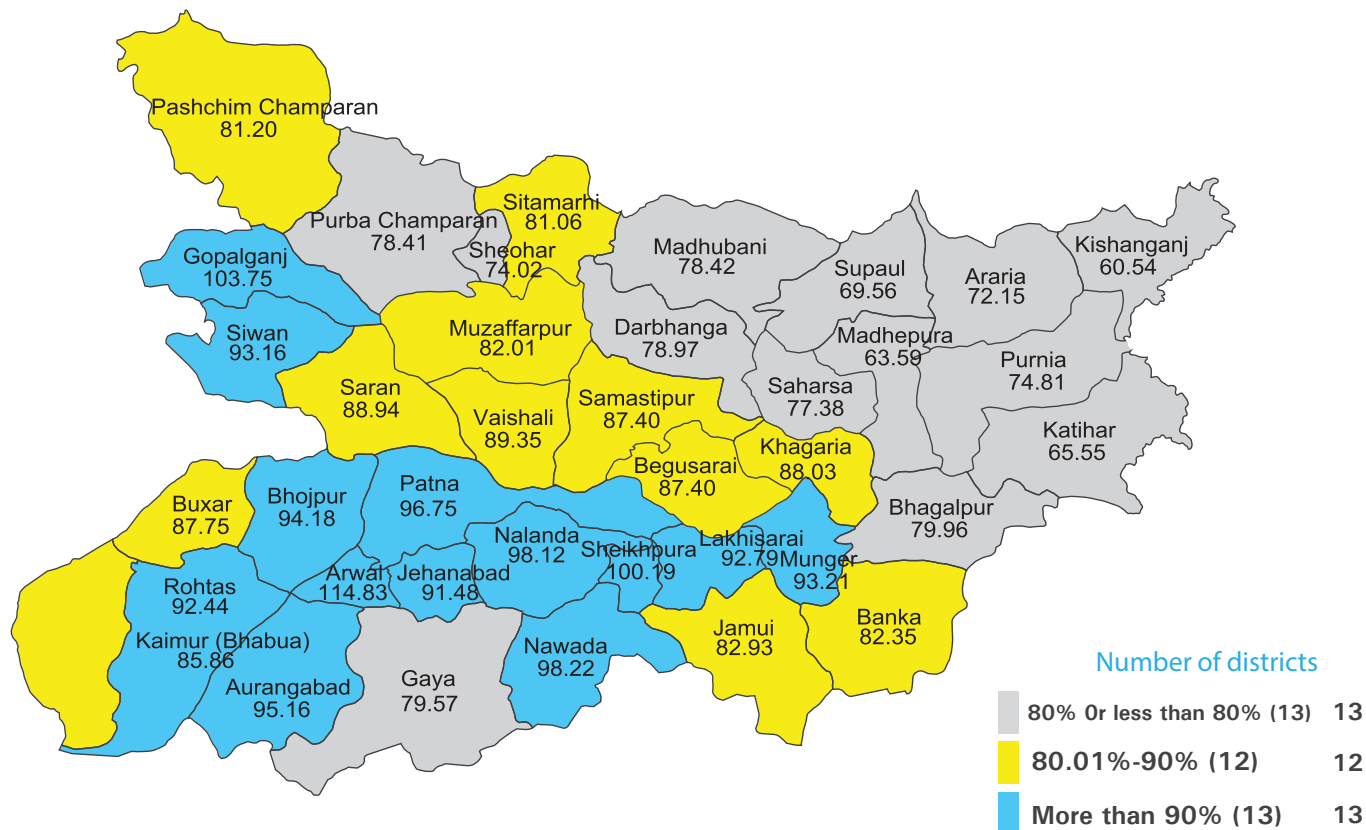

Transition rate is lower for SC, ST and Muslim compared to other social groups.

There is no significant difference in boys and girls transition rate across the social groups except Muslim

Transition Rate - Elementary to Secondary by districts, 2014-15

National average : 90.62%

State Average : 84.64%

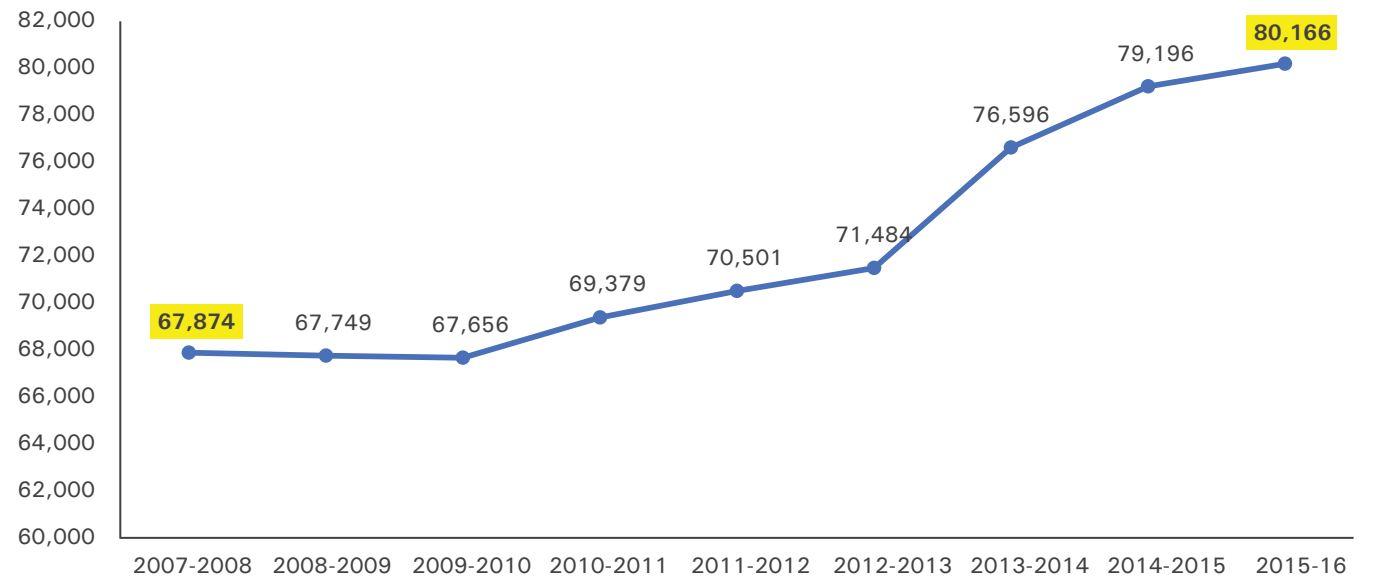

↑ Highest : 114.83% Arwal

↓ Lowest : 60.54% Kishanganj
