Suggestions :-

- 1. The pramukh, retired teacher & other social worker of the area pleaded for immediate starting of classes XI & XII, as there is no good school nearby. Since over 600 students are

4)

studying in class X, study in classes XI & XII should be started early for which infrastructure exists.

2. This School has a large compound which is open on two sides. A compound wall will secure the school building from unauthorised entry and help in better maintenance of school premises.

3. It was informed by the Head Master that there is sanction for construction of rooms on upper floor of the new building. A portion of old building was demolished to make space for stairway for the new building. Due to this, a large portion of old building is not in use. (Pic. No. 6 Page No. 6) This has reduced the capacity of the school. The construction of stairway and rooms on the upper floor of the new building need to be expedited.
