## **1. INTRODUCTION**

The Bihar Education Project Council (BEP), popularly known as Bihar Education Project (BEP) is an organization primarily dedicated to achieving “Universal Elementary Education” (UEE) in the State of Bihar, India. Launched in 1991, with the purpose of bringing about quantitative and qualitative improvement in the Elementary Education system in Bihar.

The Parishad is implementing following major programmes towards its continuous effort to bring the power of education to rural, semi-urban and urban masses, especially to girls, disabled and children of deprived and downtrodden section of the society of the State:

- Sarva Shiksha Abhiyaan – RTE (SSA-RTE)
- Kasturba Gandhi Balika Vidyalaya ( KGVB)

### ***About U-DISE and SDMIS (Computerization/digitization of Child Record)***

District Information System for Education (DISE) was initiated in the year 1994-95 at the time of launch of District Primary Education Programme (DPEP) in 11 districts of Bihar. The Scope of DISE was upgraded from primary to entire elementary level of education with the launch of Sarva Shiksha Abhiyan Programme in 2001 and entire State is being covered under DISE. Further, the review committee on Educational Statistics constituted by the MHRD recommended adopting unified system for collection and dissemination of educational statistics to overcome difficulties arising from multiple sources of data on education. Therefore, the MHRD recommended integration of DISE and SEMIS (State Educational Management Information System for Classes 9-12) into one single system from Academic Year 2012-13 onwards. This unification is known as Unified-DISE or U-DISE and under this system one Data Capture Format (DCF) is being used for the entire schooling system for classes 1 to 12. The U-DISE software has been designed by NUEPA (National University for Educational Planning & Administration), New Delhi in assistance with MHRD and UNICEF. The Software support is being provided by NUEPA to all the States & District in India which is an in-house arrangement.

U-DISE achievements are significant and have helped immensely in strengthening of EMIS in Bihar & India which have further helped in decentralized educational planning and monitoring of school education to all level of educational administrators. Despite impressive improvement with regard to coverage, quality, consistency, sharing, dissemination and utilization of U-DISE data, there still few areas of concern which needs improvement. One of the areas of concern is the quality of enrolment data even though the same has significantly improved over the time and enrolment statistics is now more consistent than ever. A variety of enrolment-related information is collected annually under U-DISE which is manually aggregated by the school HM/Teacher/Respondent. In the absence of child wise information, it is very difficult to cross verify enrolment data submitted by the schools.

One way to further improve the quality of enrolment data is to collect detailed individual student's detail and generated U-DISE enrolment tables which includes enrolment by Caste Category, age & medium of instruction, CWSN by nature of disability, repeaters, incentives, examination result etc.

In the light of above, the MHRD/NUEPA has decided and directed States to collect student-wise information as an add-on to ongoing U-DISE. The Data Capture Format suggested by the NUEPA/MHRD has been translated into the regional languages (Hindi) and have been distributed to schools for data collection during

the Academic Year: 2016-17. In this context, Bihar Education Project Council (BEPC), under Sarva Shiksha Abhiyan (SSA) wishes to hire the services of the Agencies/Companies/Firms for digitization/computerization of child wise record of nearly 2.34 Crore children of the State in a time-bound , in sync with U-DISE. These 2.34 crore children belong to all 38 districts of Bihar covering about 534 CD blocks. Out of these 2.34 children, 1,61,70,088 children belongs to Class I-V and 72,61,697 children belongs to VI-VIII. Keeping in view the strict time-line of the project, the work has been divided into 8 separate zone covering 38 districts of Bihar as mentioned in the TOR. The Objective of this RFP is to select technically competent and commercially competitive bidder for each zone, for the purpose of digitization of such a huge volume of information in an efficient and time-bound manner.

## RFP for Digitization of “Student Record” for SDMIS under Sarva Shiksha Abhiyan (SSA)

In the light of above, the MHRD/NUEPA has decided and directed States to collect student-wise information as an add-on to ongoing U-DISE. The Data Capture Format suggested by the NUEPA/MHRD has been translated into the regional languages (Hindi) and have been distributed to schools for data collection during the Academic Year: 2016-17. **The sample DCF is annexed as “APPENDIX - V”.**

In this context, Bihar Education Project Council (BEPC), under Sarva Shiksha Abhiyan (SSA) wishes to hire the services of the Agencies/Companies/Firms for digitization/computerization of Child Wise Record of nearly 2.34 Crore children of the State in a time-bound , in sync with U-DISE. These 2.34 crore children belong to all 38 districts of Bihar covering about 534 CD blocks. Out of these 2.34 children, 1,61,70,088 children belongs to Class I-V and 72,61,697 children belongs to VI-VIII. Earlier, in this regard a open tender was floated and tender were invited for all 8 zones of Bihar. Keeping in view the strict time-line of the project, the work were divided into 8 separate zone covering 38 districts of Bihar.

Earlier, out of 8 zones, the Parishad has already selected agencies for 6 zones. However, tender for Zone-1 and Zone-4 could not be finalized due to some technical/un-avoidable reasons. The Objective of this RFP is to select technically competent and commercially competitive bidder for Zone-1 and Zone-4 (as detailed in the TOR), for the purpose of digitization of child record in an efficient and time-bound manner.

## **2. SCOPE OF WORK**

The Bidder is required to setup hardware, software and peripherals along with the manpower for digitization/computerization of Child Record at Blocks/District level in each district/blocks of the Zone for which work has been awarded as described below :-

### **a. Zone wise expected number of child record to be digitized /Computerized:-**

S.N.	Zone	Name of Districts under the Zone	Number of Districts	Expected Number of Child Records
1.	Zone-1	East Champaran, West Champaran, Sitamarhi and Sheohar	4	3131929
2.	Zone-4	Madhubani, Saharsa, madhepura, Supaul, Khagaria	5	2965506

**Remarks:** The bidder is required to assess the requirements of installation of Hardware and peripherals, manpower requirement etc. depending upon the estimated number of child records in each district/block keeping in view the time-line of the project. The bidder is required to include the cost of all such items while quoting price under commercial/financial bid.

### **b. Technical Details of the Software Utility / tools for computerization of Child Record :-**

The U-DISE software designed and developed by NUEPA is presently using Oracle as back end for database management. The Front End i.e. the Software application is developed in PowerBuilder. The Software is available for On-line / Semi-on-line and off-line mode of data entry. So far, the State has adopted off-line mode of data entry keeping in view the infrastructure and internet requirements for the on-line method. Besides Oracle dependent software, the NUEPA has also designed software tool which can be used independently without Oracle. In addition, the NUEPA has devised an XLS sheet template for computerization and uploading of bulk record. Using this school wise data entry can be made off-line and may be uploaded / synchronized with the U-DISE database in off-line/semi on-line/on-line mode. This XLS sheet can be generated school wise on the basis of Number of children. At present the maximum number of rows which will be automatically generated is 2000. The same XLS sheet can be used for other schools also by replacing the School Code. The technical details can be seen and downloaded from the URL <http://dise.in/udise.html>.

### **c. Validation / Consistency Check of the digitized Child Record**

Digitization of the Child Records have to be made by the agency from the Data Capture Format filled in by the School Teacher as annexed at Appendix – V. Each filled in form will have 6-8 child record on each side of the Page. The Software has the in-built

mechanism for data validation /consistency check while data entry but at the same time it will not force the operators to stop the data entry. Inconsistencies like missing values, No Response, Invalid values if any found in the DCF during data entry should be marked by the data entry operators and be handed over to the concerned district MIS coordinator for verification from the field. This process will be followed on a day-to-day basis so that error/inconsistencies found are resolved at the earliest.

### **3. Implementation Arrangements :-**

Setting up of data-entry point at block/district level, capacity building and roll out shall follow an implementation arrangement that shall ensure seamless execution of the “SDMIS - Computerization” on each of the location. The project will be monitored jointly by the BEPC and the Agency.

- d. The agency should have its own office in Bihar with adequate number of administrative and technical staff for seamless execution of the project.
- e. It will be bidder's responsibility to install/set-up Desktop/Laptop, OS, Other application Software etc. at the Block/District level office within 15 days from the date of award of work/LOI. The Installed hardware & Software should be compatible with the Software tools/templates of the SDMIS.
- f. BEPC will provide rent-free space for the Agency to set-up and deployment of infrastructure and manpower to execute the project up to block level. The Agency will be responsible for maintenance and security for the IT infrastructure installed and set-up at all levels. The data entry location/room/space will be in physical lock and key of the Agency.
- g. Electricity, if available, shall be provided to the agency at Block / District level by the BEPC free of cost. However, generator running expenses or cost towards any alternative arrangements for electricity will have to be bear by the bidders on their own.
- h. The bidder would deploy/designate one technical coordinator at each district who would coordinate data collection, collation and facility management at Block/District level in consultation with the District MIS coordinator of BEPC. It will be bidders' responsibility to deploy adequate manpower for digitization of Child Record at Block/District level.
- i. The MIS Coordinator of the concerned district level office will monitor the implementation facilities and operations on a day-to-day basis. The technical coordinator deployed by the Agency shall report to the district MIS in-charge who in turn will report to the State Programme Officer, MIS of BEPC at the State level.
- j. Appropriate order will be issued by the BEPC to the concerned District / Block level officials (DEOs/DPOs/MIS Coordinators/BEOOs) to help in timely execution of the Project.

- k. The BEPC will provide the SDMIS software & its support to the bidder at District/sub-district level through its State/District level offices.
- l. Any data entry arrangement above the district level will not be allowed to the bidders in any circumstances.
- m. It will be the bidders' responsibility to insure and maintain the hardware, software and peripherals at the data entry locations.
- n. One day orientation / hands-on training on U-DISE/SDMIS Tools/XLS template shall be provided to the data entry operators deployed by the Agency at the District/block level by the BEPC at District / State level to efficiently operate the software.
- o. The Successful bidder shall be the principal employer of the persons, so appointed for this purpose and in no case such persons shall be treated as employee of the BEPC/BSPP. The private agency shall be liable to meet all past/present/future financial liability on account of remunerations and contributions towards all statutory obligations of the person so appointed.
- p. The Successful bidder shall be responsible for the professional and technical competence of its employees and will select, for work under this Contract, reliable individuals who will perform effectively in the implementation of the Contract, respect the local customs and conform to a high standard of moral and ethical conduct.
- q. The Software for child-wise data entry has in-built data validation facility. However, it would be the bidders' responsibility to mark the inconsistencies found in the DCF while data entry and to bring it in the notice of the district MIS Coordinator of BEPC. The district MIS Coordinator in turn will facilitate the data validation and consistency check from the field level.
- r. In the initial phase, the Agency will complete data entry work of children belonging to classes I-V. Data entry of child record for classes VI-VIII will be taken up by the agency in the subsequent phase.
- s. It will be the responsibility of the concerned district MIS coordinator to thoroughly check and verify the quality and consistency of the data before issuing certificate to the Agency for submission of the data to the State Project Office. The State Level Office may also check the quality of data entered by the agency on a sample basis if desired before the release of payment.
- t. The overall in-charge of the project would be the DPO – EE & SSA at district level & State Programme Officer (MIS) of BEPC at the State Level Office.

#### **4. Time-line for the Project**

The expected duration of the project is 3 months. The indicative time-line for the implementation of the project activities in number of Weeks & Months (W denotes Week and M denotes Month) is shown in the table as below:-

Activity	Time-Line for the Project (in number of Weeks & Months)											
	M1				M2				M3			
	W1	W2	W3	W4	W5	W6	W7	W8	W9	W10	W11	W12
Project Kick-off (Execution of Agreement / Lol, Survey of each District / Block location & setting up of data entry point)												
Digitization of Child Record - DCF												
Checking of data inconsistency, Correction and submission of final data to district authority												

## 5. Payment Terms:

- i. 100% Payment by the State Level Office on the successful completion of the data entry, consistency check and on the receipt of certificate of work done along with database in the desired format from the concerned DPO – EE & SSA, certified by district MIS Coordinator.
- ii. All Payments will be subject to deduction of Income tax prevailing / applicable at the time of payment.
- iii. In bills all taxes should be shown separately.
- iv. No advance payment shall be made.
- v. No interest would be payable on delayed payments. However BEPC would normally make every possible effort to make payments promptly.
